

Spinal Deformity *Live*

Dr. Lawrence Lenke

Dr. Munish Gupta

Dr. Sajan Hegde

Meet the Masters

Organised by Apollo Hospitals &
Chennai Spine Club

22nd & 23rd August 2014

One of a kind !

**This is not your typical
spine course !!**

- Surgeries broadcast real-time on movie theatre-sized screens
- Live Q&A with surgeons during procedures
- Robotic deformity correction

*D*ear Colleague,

I would like to cordially invite you for “Spinal Surgery Live” – a course like no other. Over two days you will observe and discuss the treatment of extremely complex deformity broadcast in real-time and performed by leaders in our field.

You will also have the opportunity to participate in an in-depth case discussion with the Masters.

This is an opportunity not to be missed.

Looking forward to meeting you in Chennai.

Dr. Sajan K Hegde

Dr. Lawrence G. Lenke

Dr. Lenke is one of the world's foremost leaders in spinal deformity surgery.

He is the Jerome J. Gilden Distinguished Professor of Orthopaedic Surgery and Professor of Neurological Surgery. He is also Chief of Spinal Surgery and the Director of the Advanced Deformity Fellowship at Washington University School of Medicine in Saint Louis, Missouri. His practice is devoted exclusively to the treatment of severe pediatric and adult spinal deformity.

Dr. Munish C. Gupta

Dr. Gupta is Chief of Orthopaedic Spinal Disorders Service and Co-Director of Spine Surgery, UC Davis Medical Center, Sacramento, California.

He is an adult and pediatric spine care specialist. His areas of expertise focus on spinal reconstructive surgery, including repair of spinal deformities associated with scoliosis, multiple surgeries and severe spine problems. Dr. Gupta is conducting research to develop an animal model to enhance spinal fusion.

Dr. Sajan K Hegde

Dr. Hegde is Chief of Spine Service at Apollo Hospitals, Chennai.

He is one of the leading surgeons with more than two decades of experience in the field of spinal surgery. He has pioneered many techniques in the management of complex spine problems. His areas of interest are paediatric deformity, motion preservation surgery and robotic spinal surgery.

Highlights of the program

- Vertebral column resection
- Pedicle subtraction osteotomies
- Ponte osteotomies
